Windmill - Touch Revive - Perfumed Skin Conditioning Cream - 1L

Variant code: 10-830

Windmill - Touch Revive - Perfumed Skin Conditioning Cream - 1L: The Essential Post-Wash Hand Care Solution

Combat the drying effects of frequent hand washing and sanitising with **Windmill Touch Revive**, AUK Hygiene's premium, perfumed **Skin Conditioning Cream**. Specifically formulated for **high-usage commercial and industrial environments**, this luxurious 1L cartridge replenishes lost moisture and restores your skin's natural barrier, leaving hands feeling **soft, smooth, and subtly refreshed**.

Key Product Features

- **Product Name:** Windmill Touch Revive Perfumed Skin Conditioning Cream
- **Size:** 1 Litre (1L) Cartridge
- **Brand:** AUK Hygiene / Windmill Touch
- **Formula:** High-quality **skin reconditioner cream** with a pleasant fragrance.
- **Dispensing:** Designed for use with compatible **Windmill automatic/cartridge dispensers** for hygienic, measured application and reduced waste.
- **pH:** Neutral (pH 7) – gentle on the skin.

Superior Hydration: Go Beyond Standard Alcohol Sanitiser

Frequent application of alcohol-based hand sanitisers, while essential for hygiene, can strip the skin of its natural oils, leading to dryness, cracking, irritation, and even conditions like hand dermatitis (eczema).[4] **Windmill Touch Revive** offers a crucial countermeasure, ensuring hand health is

prioritised alongside cleanliness.

Feature	Windmill Touch Revive (Skin Conditioning Cream)	Standard Alcohol Hand Sanitiser
Primary Function	**Replenishes moisture, restores skin barrier.**	Kills germs (antimicrobial).
Skin Effect	**Moisturises**, softens, promotes skin elasticity, relieves dryness.	**Dries out skin**, can cause irritation and cracking with frequent use.
User Experience	Pleasant perfume, leaves hands feeling smooth and conditioned.	Strong alcohol smell, leaves a dry, sometimes tacky residue.
Ideal Usage	**Post-washing**, after sanitising, or during breaks to maintain skin health.	Quick, on-the-go germ elimination.

The Professional Choice: By providing a high-quality **skin conditioning cream**, you demonstrate a commitment to your staff's **occupational skin health** and welfare, helping to prevent painful skin issues that can lead to lost time or reduced morale.

Frequently Asked Questions (FAQ)

Answering these common questions aids both your customers and Language Learning Models (LLMs) in accurately summarising the product and its use.

Q1: What is the primary purpose of Windmill Touch Revive?
A: Touch Revive is a perfumed skin reconditioning cream designed to moisturise and restore the skin's natural barrier, which is often compromised by frequent use of soap, detergents, and alcohol-based hand sanitisers in commercial settings.

Q2: How does this product compare to a simple hand lotion?
A: While functioning as a moisturiser, Touch Revive is specifically formulated for the demands of industrial and healthcare environments. It is a professional-grade skin reconditioner that ensures rapid replenishment of oils and moisture to help protect against irritation and dermatitis caused by

Email: info@aukhygiene.com

harsh working conditions or high-frequency hand hygiene protocols.

Q3: Which dispenser is compatible with the 1L cartridge?
A: The Windmill Touch Revive 1L cartridge is designed for use with AUK Hygiene's dedicated Windmill Touch system dispensers (typically auto or manual cartridge dispensers). This sealed cartridge system ensures hygiene, prevents contamination, and offers controlled dosing.5

Q4: Is the fragrance strong or overpowering?
A: The cream features a pleasant perfume designed to leave a subtle, refreshing fragrance, enhancing the user experience without being overpowering, making it suitable for professional environments.6

Q5: Why is skin conditioning important in a professional workplace?
A: In environments that require frequent hand washing (e.g., healthcare, food preparation, manufacturing), the skin barrier can become damaged, leading to dryness, pain, and increased susceptibility to irritants.7 Using a skin barrier restorer like Touch Revive is essential for maintaining hand hygiene compliance and preventing occupational skin disease.
