Touchscreen Knit Glove - S/M - Navy

Variant code: 22-GL16NARS/M

Touchscreen Knit Glove – Navy: The Perfect Blend of Heritage Craftsmanship & Modern Utility

The **Touchscreen Knit Glove in Navy** is the ultimate solution for the modern professional who needs to stay connected without sacrificing protection. Combining the rugged durability of **genuine goat grain leather** with a breathable, high-flex knit, these gloves are designed for high-performance tasks in a digital world.

Whether you are navigating a tablet on a job site or handling equipment in **light industrial applications**, this glove offers a "precision feel" that standard work gloves simply can't match.

Key Features & Premium Materials

- **Durable Goat Grain Leather:** The palm is crafted from premium goat leather, known for its high natural lanolin content which keeps the glove soft and supple while offering **excellent abrasion resistance**.
- **Integrated Touchscreen Compatibility:** Specially treated leather fingertips allow for seamless interaction with smartphones, tablets, and HMIs (Human Machine Interfaces) without removing your gear.
- **Breathable Cotton Back:** The navy knit/cotton back ensures maximum airflow, keeping your hands cool and reducing moisture buildup during intensive tasks.
- **Reinforced Fingertips:** Extra layering on high-wear areas ensures **long-lasting durability** and added protection where you need it most.
- **Hook & Loop Fastening:** The adjustable wrist closure provides a **secure, custom fit** and prevents debris, dust, or metal shavings from entering the glove.

Feature	Detail
Palm Material	Premium Goat Grain Leather
Back Material	Breathable Navy Cotton/Knit
Closure Type	Adjustable Hook & Loop (Velcro style)
Color	Professional Navy Blue / Natural Tan
Best Use	Light Industry, Logistics, Maintenance, DIY

Pro-Tips for the Modern Worker

- **The "Break-In" Period:** Goat grain leather is naturally soft, but wearing them for 30 minutes of light activity will allow the leather to mold perfectly to the unique contour of your hand.
- **Screen Sensitivity:** For the best touchscreen response, ensure your fingertips are pushed all the way to the end of the glove. This creates the necessary surface contact for capacitive screens.
- **Cleaning the Leather:** If the leather becomes soiled, wipe with a damp cloth. Avoid submerging in water, as this can strip the natural oils that keep the leather flexible.

Frequently Asked Questions (FAQs)

Q: Are these gloves suitable for heavy welding or high-heat tasks?

A: No. These are designed for **light industrial applications** and general handling. For high-heat or heavy-duty welding, we recommend our specialized gauntlet range.

Q: Can I use these on any touchscreen device?

A: Yes! The conductive properties in the reinforced fingertips are designed to work with all modern capacitive touchscreens, including iPhones, Android devices, and industrial tablets.

Q: Does the navy knit back stretch over time?

Tel: 01626 355177
Email: info@aukhygiene.com

A: The cotton-knit blend is designed for **shape retention**. While it offers a comfortable stretch for dexterity, the hook & loop fastening ensures the glove remains tight at the wrist.

Why Choose This Glove?

When looking for **affordable touchscreen work gloves** or **breathable leather safety gear**, the Navy Touchscreen Knit Glove stands out for its balance of comfort and utility. It's a top-rated choice for logistics drivers, warehouse managers, and technicians who require **SEO-optimized safety solutions** that deliver on both style and substance.
