Windmill Traffic Film Remover - 5L

Variant code: 06-928

Windmill Traffic Film Remover is a heavy duty vehicle cleaner designed to deliver **powerful removal of road grime, traffic film and stubborn contamination** from vehicle surfaces. As part of the Windmill professional cleaning range, it provides an effective solution for maintaining vehicle cleanliness in commercial and industrial environments.

Formulated for use with **high pressure spray equipment**, the product rapidly breaks down and loosens built-up traffic film, grease and dirt from vehicle exteriors. It is particularly effective on heavily soiled vehicles where standard cleaning products may not provide sufficient performance. The formulation allows contaminants to be easily rinsed away, restoring a clean surface efficiently.

The product is designed for straightforward application—spray onto the vehicle at low pressure, allow it to act on the surface contamination, and then rinse thoroughly using high pressure water. Care should be taken **not to allow the product to dry on the surface**, ensuring optimal cleaning results and preventing residue.

Product Features

- Heavy duty **traffic film remover**
- Designed for use with **high pressure cleaning systems**
- Breaks down **road grime, grease and dirt**
- Suitable for vehicle exterior cleaning
- Fast-acting formulation for efficient results
- Easy rinse-off after application

Product Benefits

- Removes stubborn traffic film quickly and effectively
- Reduces cleaning time for heavily soiled vehicles
- Improves vehicle appearance and cleanliness
- Suitable for commercial and fleet cleaning
- Supports efficient cleaning operations
- Delivers consistent and reliable results

Technical Characteristics

- Designed for use with **pressure washing equipment**
- Applied via low pressure spray and rinsed at high pressure
- Must not be allowed to dry on surfaces
- Suitable for vehicle exterior surfaces
- Use of **gloves and eye protection recommended**
- Use in accordance with manufacturer guidelines

Applications

Windmill Traffic Film Remover is suitable for use in **transport, logistics, fleet maintenance and automotive environments**, including commercial vehicle cleaning and industrial applications. It is particularly effective for removing **heavy traffic film and road contamination** from cars, vans, lorries and other vehicles. Its compatibility with pressure washing systems makes it ideal for **high-efficiency cleaning operations** in busy environments.

Property	Value
Fragrance	Odourless
pH	13
Area of Use	Vehicles
CLP	corrosive
How to Use	Add to the pressure washer tank, pre-dilute as needed (1:1 heavy, up to 1:8 light) to achieve 1–3% use dilution. Pre-spray at low pressure, clean at high pressure (up to 70°C), then stop detergent feed and rinse thoroughly with clean water.
Chemical Colour	Blue
