

Windmill Traffic Film Remover – 5L

Variant code: 06-928

Windmill Traffic Film Remover is designed for use as a heavy duty traffic film remover in conjunction with high pressure spray equipment.

How to use:

Spray at low pressure onto vehicle to be cleaned.

DO NOT ALLOW TO DRY. The loosened soil and traffic film should then be removed with clean water at high pressure.

The use of gloves and goggles are recommended when spraying the solution.
