# Truvox 1.5mm, 3 Core Cable: For Truvox Orbis - 15m

**Variant code: 16-FLX60**

**Truvox 1.5mm² 3 Core Cable - 15m** is a **heavy-duty replacement power cable** designed for use with **Truvox Orbis rotary floor machines**. Manufactured with durable **1.5mm² three-core flexible cable**, this high-visibility orange mains lead provides a safe, reliable power supply while offering an extended 15-metre working radius for professional floor cleaning applications.

Fitted with a standard **13A UK mains plug**, the cable is engineered to withstand the demands of commercial cleaning environments. Its robust flexible construction offers excellent durability and flexibility, while the bright orange outer sheath improves visibility, helping to reduce trip hazards during operation.

Ideal as a replacement for worn or damaged cables, this heavy-duty mains lead helps restore the safe operation of compatible Truvox Orbis rotary machines. The extended cable length minimises the need to change power outlets, improving productivity when cleaning large floor areas.

## Product Features

- Heavy-duty replacement mains cable
- Designed for Truvox Orbis rotary machines
- 15 metre cable length
- 1.5mm² three-core flexible cable
- Fitted with UK 13A mains plug
