Truvox 17" Ultra High Speed Vacuum Skirt Assembly - For Orbis UHS 1500 43cm Burnisher

Variant code: 16-0537660500

Truvox 17" Ultra High Speed Vacuum Skirt Assembly is a **professional dust control accessory** designed specifically for the **Truvox Orbis UHS 1500 ultra high-speed burnisher**. Engineered to help contain and collect dust generated during high-speed burnishing operations, this vacuum skirt assembly enhances workplace cleanliness while supporting improved floor maintenance results.

Designed to fit around the burnishing pad area, the vacuum skirt helps capture fine dust particles created during polishing and burnishing processes. When used with compatible dust collection systems, it assists in reducing airborne dust, helping maintain cleaner indoor environments and improving operator comfort during extended floor maintenance tasks.

The robust assembly is manufactured to withstand the demands of commercial floor care applications while maintaining effective dust control performance. Its durable construction ensures long service life, making it a valuable addition for professional cleaning contractors and facilities management teams.

Product Features

- **17" (43cm) vacuum skirt assembly**
- Designed for the **Truvox Orbis UHS 1500 Burnisher**
- Helps contain dust during high-speed burnishing
- Supports dust collection and cleaner operation
- Durable professional-grade construction
- Genuine Truvox accessory

Product Benefits

- **Reduces airborne dust during floor burnishing**
- **Promotes cleaner and safer working environments**
- **Improves overall floor maintenance**
