Truvox 17" Vacuum Skirt - Dust Control Vacuum Skirt for Orbis Rotary Machines

Variant code: 16-0534410000

Truvox 17" Vacuum Skirt is a **dust control accessory** designed for use with compatible **Truvox Orbis rotary floor machines**. Engineered to help contain and manage airborne dust during floor maintenance operations, this practical accessory enhances cleaning efficiency while helping maintain a cleaner and safer working environment.

The vacuum skirt fits around the base of the rotary machine, creating a controlled area around the floor pad or brush. When used in conjunction with appropriate dust extraction equipment, it helps reduce the spread of dust particles generated during floor preparation, polishing, sanding or maintenance tasks. This makes it particularly beneficial in environments where cleanliness and air quality are important considerations.

Manufactured from durable materials for professional use, the vacuum skirt is designed to withstand the demands of commercial floor care applications while maintaining effective performance. Its robust construction ensures long service life and dependable operation in busy cleaning environments.

Designed specifically for **17" Truvox Orbis machines**, the vacuum skirt provides a secure fit and easy installation, helping operators achieve more efficient dust management during floor maintenance projects.

Product Features

- **17" vacuum skirt for rotary floor machines**
- Compatible with **Truvox Orbis rotary machines**
- Helps contain dust during floor maintenance operations
- Supports use with dust extraction systems
- Durable commercial-grade construction
- Easy to fit and remove

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- **Helps reduce airborne dust during floor maintenance**
- **Promotes a cleaner and safer working environment**
- **Improves dust control during polishing and floor preparation**
- Supports compliance with workplace cleanliness standards
- Durable design for long-term professional use
- Enhances the versatility of Orbis rotary machines

Technical Characteristics

- Product Type: **Vacuum Skirt**
- Diameter Compatibility: **17" (43cm)**
- Compatible Machines: **Truvox Orbis Rotary Machines**
- Suitable for dust control applications
- Professional-duty construction
- Genuine Truvox accessory

Applications

Truvox 17" Vacuum Skirt is ideal for **schools, healthcare facilities, offices, retail environments, leisure centres, public buildings, hospitality venues and commercial premises** where floor maintenance activities require improved dust control. Suitable for use during **floor preparation, polishing, maintenance and restoration tasks**, it helps minimise dust dispersion and maintain cleaner working conditions.
