Truvox 5L Solution Tank - For Truvox Orbital Floor Machine

Variant code: 16-0544350500

Truvox 5L Solution Tank is a **professional solution dispensing accessory** designed specifically for compatible **Truvox Orbital Floor Machines**. This practical attachment enables controlled application of cleaning solution directly during floor cleaning operations, improving efficiency and ensuring consistent cleaning performance across a variety of hard floor maintenance tasks.

Featuring a **5-litre capacity**, the solution tank provides ample cleaning solution for routine floor care applications while maintaining the manoeuvrability and balance of the machine. The integrated dispensing system allows operators to apply cleaning solution precisely where it is required, helping to reduce waste and optimise chemical usage.

Designed for seamless integration with Truvox orbital machines, the solution tank enhances productivity by eliminating the need for separate mopping or manual spraying during cleaning operations. Its durable construction ensures reliable performance in demanding commercial environments, while the easy-fill design simplifies operation and maintenance.

Ideal for routine cleaning, deep scrubbing and floor restoration applications, the Truvox 5L Solution Tank is a valuable accessory for professional cleaners seeking greater efficiency and improved cleaning results.

Product Features

- **5-litre solution tank**
- Designed for **Truvox Orbital Floor Machines**
- Controlled solution dispensing system
- Durable commercial-grade construction
- Easy-fill and easy-maintain design
- Genuine Truvox accessory

Product Benefits

- **Applies cleaning solution directly during machine operation**
- **Improves cleaning efficiency and**

productivity
- **Reduces chemical waste through controlled dispensing**
- Eliminates the need for separate solution application methods
- Enhances cleaning consistency across floor surfaces
- Increases the versatility of orbital floor machines

Technical Characteristics

- Capacity: **5 Litres**
- Product Type: **Solution Tank**
- Compatibility: **Truvox Orbital Floor Machines**
- Integrated solution dispensing system
- Professional-duty construction
- Genuine Truvox accessory

Applications

Truvox 5L Solution Tank is ideal for **schools, healthcare facilities, offices, retail environments, leisure centres, hotels, warehouses and commercial buildings** where orbital floor machines are used for floor maintenance. Suitable for **daily cleaning, deep scrubbing, floor restoration and hard floor maintenance programmes**, it provides efficient and controlled solution application for professional cleaning operations.
