# Truvox Additional 12.5kg Weight - For Truvox Orbital Machine

**Variant code: 16-2030071**

**Truvox Additional 12.5kg Weight** is a **professional machine weighting accessory** designed specifically for compatible **Truvox Orbital Floor Machines**. Engineered to increase downward pressure during cleaning and floor preparation tasks, this additional weight enhances machine performance and improves cleaning effectiveness on demanding floor maintenance applications.

By adding **12.5kg of extra operating weight**, the accessory increases pad-to-floor contact pressure, allowing the machine to achieve more aggressive cleaning action where required. This makes it particularly beneficial for deep scrubbing, floor restoration, coating removal and surface preparation tasks that demand greater mechanical performance.

Manufactured to integrate seamlessly with compatible Truvox orbital machines, the weight is easy to install and provides a secure fit during operation. Its robust construction ensures durability and long service life, even in demanding commercial and industrial environments.

As a genuine Truvox accessory, the Additional 12.5kg Weight helps maximise the versatility and performance of orbital floor machines, enabling cleaning professionals to tackle tougher floor care applications with improved efficiency and results.

## Product Features

- **Additional 12.5kg machine weight**
- Designed for compatible **Truvox Orbital Machines**
- Increases downward pressure during operation
- Ideal for intensive floor maintenance applications
- Durable professional-grade construction
- Genuine Truvox accessory

## Product Benefits

- **Enhances scrubbing and floor preparation performance**

Tel: 01626 355177
Email: info@aukhygiene.com

- **Improves pad-to-floor contact for more effective cleaning**
- **Assists with floor restoration and coating removal tasks**
- Increases cleaning efficiency on heavily soiled surfaces
- Easy to install and remove as required
- Expands the capabilities of Truvox orbital machines

## Technical Characteristics

- Product Type: **Additional Machine Weight**
- Weight: **12.5kg**
- Compatibility: **Truvox Orbital Floor Machines**
- Application: Enhanced scrubbing and floor preparation
- Heavy-duty construction
- Genuine Truvox accessory

## Applications

Truvox Additional 12.5kg Weight is ideal for **commercial cleaning contractors, facilities management teams, healthcare facilities, educational establishments, retail environments, warehouses and industrial premises**. Suitable for **deep scrubbing, floor restoration, coating removal, surface preparation and intensive hard floor cleaning**, it helps maximise machine performance and improve productivity in demanding floor care applications.

| Property | Value |
|---|---|
| Weight (kg) | 12.5 |
| Application | Enhanced scrubbing and floor preparation |
| Product Type | Additional Machine Weight |
