Truvox Battery - For Valet Battery Upright Vacuum

Variant code: 16-X9184

Truvox Battery is a **genuine rechargeable power source** designed for compatible **Truvox battery-powered cleaning machines**. Available for both the **Multiwash 340/Pump Battery Scrubber Dryer** and the **Valet Battery Upright Vacuum**, this replacement battery delivers reliable cordless operation, helping maintain productivity, flexibility and consistent cleaning performance in demanding commercial environments.

Engineered for seamless compatibility, the battery provides dependable power throughout cleaning operations, allowing operators to work without the restrictions of mains cables. Cordless operation improves manoeuvrability, enhances operator safety by eliminating trip hazards and enables efficient cleaning in busy areas where access to power outlets is limited.

Manufactured to Truvox's professional standards, the battery offers consistent performance and reliable runtime, making it ideal as either a replacement for a worn battery or a spare to extend operating time. Its robust construction ensures dependable performance and helps maximise the efficiency of compatible Truvox machines.

Ideal for professional cleaning contractors, facilities management teams and commercial cleaning operations, this genuine Truvox replacement battery helps maintain uninterrupted cleaning performance across a variety of applications.
