

Truvox Heavy Duty Weights Conversion Kit – For Orbis 200 Rotary Floor Machine

Variant code: 16-0537850000

Truvox Heavy Duty Weights Conversion Kit is a **professional performance-enhancing accessory** designed specifically for the **Truvox Orbis 200 rotary floor machine**. Engineered to increase the machine's operating weight, this conversion kit provides additional downward pressure, improving scrubbing performance on heavily soiled floors and demanding floor maintenance applications.

By increasing the contact pressure between the brush or pad and the floor surface, the kit helps achieve more effective agitation and deeper cleaning results. This makes it particularly beneficial for intensive scrubbing tasks, floor preparation work and restorative cleaning applications where additional cleaning power is required.

Designed for seamless compatibility with the Orbis 200, the heavy-duty weight kit is easy to install and integrates securely with the machine. Its robust construction ensures long-lasting durability and reliable performance in commercial and industrial cleaning environments.

Ideal for professional cleaners and facilities management teams, the Truvox Heavy Duty Weights Conversion Kit enhances the versatility and effectiveness of the Orbis 200, allowing operators to tackle tougher cleaning challenges with greater efficiency.

Product Features

- **Heavy-duty weight conversion kit**
- Designed for the **Truvox Orbis 200 rotary machine**
- Increases machine weight and floor contact pressure
- Improves scrubbing and floor preparation performance
- Durable professional-grade construction
- Genuine Truvox accessory

Product Benefits

- **Enhances cleaning performance on heavily soiled floors**
- **Provides increased downward pressure for improved agitation**
- **Improves effectiveness of scrubbing and restoration tasks**
- Helps reduce cleaning time on challenging surfaces
- Expands the capabilities of the Orbis 200
- Built for demanding commercial cleaning applications

Technical Characteristics

- Product Type: **Heavy Duty Weights Conversion Kit**
- Compatible Machine: **Truvox Orbis 200**
- Application: Enhanced scrubbing and floor preparation
- Heavy-duty construction
- Professional-use accessory
- Genuine Truvox component

Applications

Truvox Heavy Duty Weights Conversion Kit is ideal for **commercial cleaning contractors, facilities management companies, healthcare facilities, educational establishments, retail environments, warehouses and industrial sites**. Suitable for **deep scrubbing, floor restoration, surface preparation and intensive hard floor cleaning**, it helps maximise the performance of the Truvox Orbis 200 in demanding cleaning environments.
