

Truvox Multiwash 340 Pro Scrubber Drier

Variant code: 16-MWPRO340

The new and updated Multiwash machine scrubs and cleans floors leaving minimal water behind, allowing them to dry quickly.

A very easy to use machine that will give you exceptional results on almost every floor type, including safety flooring, wood-effect flooring, patterned flooring, smooth polished floors as well as entrance mats and carpets.

The machine uses a simple counter rotating brush motion that effectively scrubs the floor and flicks the dirt onto a central drum. The central drum collects the dirt and water into the recovery tank.

What's New With the New Multiwash?

- Increased brush diameter and improved motor gives 12% more scrubbing power providing an even better cleaning performance
- Improved aesthetics and ergonomic design
- A durable, no-marking, hard shell for protection of your machine and surroundings
- Increased use of engineering plastics eliminating any corrosion
- One simple push button to dispense cleaning solution
- Handle is easier to assemble to the base
- Improved tank connection
- Improved quick disconnect solution system
- Optional 7 litre tank for greater productivity
- All models come with pump as standard
- Fully enclosed spray nozzle for improved aesthetic and greater protection when cleaning under low level items.
- Feature added to prevent the recovery tank lid touching the drum, especially if using it for carpet encapsulation.
