Truvox Multiwash 340 Side Brush - For Multiwash 340 Machines

Variant code: 16-9001320000

Truvox Multiwash 340 Side Brush is a **specialist edge cleaning accessory** designed for use with the **Truvox Multiwash 340 scrubber dryer range**. Engineered to improve cleaning performance along skirting boards, walls and hard-to-reach edges, this genuine Truvox accessory enables operators to achieve more comprehensive floor cleaning results without additional manual effort.

The side brush is designed to replace one of the standard brush rods on the Multiwash 340, allowing the machine to clean closer to edges and corners that are often difficult to reach with conventional brush configurations. This helps ensure more complete floor coverage and improves cleaning standards in areas where dirt and debris can accumulate.

Simple to install and remove, the side brush can be fitted quickly by replacing one of the existing brush rods with the side brush rod. Its durable construction ensures reliable performance and long service life, even in demanding commercial cleaning environments.

Compatible with all **Truvox Multiwash 340 machines**, this accessory is an ideal addition for cleaning professionals seeking enhanced edge cleaning performance and improved overall floor maintenance results.

Product Features
