Truvox Orbis 15"/38cm Flexi Drive Board - For Orbis 200 Rotary Machine

Variant code: 16-0546730500

Truvox Orbis 15"/38cm Flexi Drive Board is a **professional floor pad holder** designed for use with the **Truvox Orbis 200 rotary floor machine**. Engineered to securely hold floor pads during cleaning, polishing, buffing and maintenance operations, this versatile accessory enhances the machine's functionality and allows operators to perform a wide range of floor care tasks efficiently.

The Flexi Drive Board provides a secure connection between the rotary machine and floor maintenance pads, ensuring consistent contact with the floor surface for optimum cleaning and polishing results. Suitable for use with a variety of pads, it allows quick adaptation of the machine for scrubbing, spray cleaning, polishing, buffing and floor restoration applications.

With a **15" (38cm) diameter**, the drive board is ideal for smaller floor areas and locations where greater manoeuvrability is required. Its flexible design helps maintain even pad pressure across the floor surface, improving cleaning consistency and overall performance.

Manufactured for professional use, the Truvox Flexi Drive Board features a durable construction that delivers long service life and reliable operation in demanding commercial environments. As a genuine Truvox accessory, it integrates seamlessly with compatible Orbis machines.

Product Features

- **15" (38cm) Flexi Drive Board**
- Designed for the **Truvox Orbis 200**
- Suitable for floor maintenance pads
- Ideal for cleaning, polishing and buffing applications
- Flexible design for improved floor contact
- Durable professional-grade construction

Product Benefits

- **Allows quick attachment of floor pads for multiple floor care tasks**
- **Provides consistent pad-to-floor**
