Truvox Orbis 17"/43cm Flexi Drive Disc - Drive Board for Orbis 200 & 400

Variant code: 16-0534370500

Truvox Flexi Drive Disc is a **professional 17" (43cm) drive board** designed for use with the **Truvox Orbis 200 and Orbis 400 rotary floor machines**. Engineered to securely hold floor pads during cleaning, polishing, buffing and maintenance tasks, this versatile accessory enhances the performance and flexibility of Truvox rotary machines across a wide range of floor care applications.

The durable drive board provides a reliable connection between the machine and floor pad, ensuring consistent contact with the floor surface for optimum cleaning and polishing results. Suitable for use with a variety of pads, the Flexi Drive Disc allows operators to quickly adapt their machine for different maintenance tasks, from routine cleaning and spray buffing to polishing and floor restoration.

Manufactured to withstand demanding commercial use, the drive board features a robust construction that delivers long service life and dependable performance. Its flexible design helps maintain effective pad contact across floor surfaces, contributing to improved cleaning efficiency and a more uniform finish.

As a genuine Truvox accessory, the Flexi Drive Disc integrates seamlessly with compatible Orbis rotary machines, providing cleaning professionals with a practical and versatile solution for floor maintenance operations.

Product Features

- **17" (43cm) Flexi Drive Disc**
- Compatible with **Truvox Orbis 200 and Orbis 400**
- Designed for use with floor maintenance pads
- Suitable for cleaning, polishing and buffing applications
