

Truvox Orbital 1500 Heavy Duty Rotary Machine with Integrated Drive Board

Variant code: 16-OB451500

The orbital 1500 from Truvox has both an orbital and rotary action in one, providing a constant vibration which improves cleaning efficiency.

Idea for hospitals, retail premises, airport concourses and the leisure industry.

Features:

- The roto-orbital movement gives the machine great stability, which enhances the performance compared with a regular single disc machine
- Easy to use and manoeuvre
- Low vibration levels give excellent operator comfort
- Suitable for use on different floors including carpets, hard floors, vinyl and stone
- The chassis can be lifted above the motor to increase working pressure on the target floor, making cleaning more effective
- Large wheels for easy transportation
- Optional solution tank and spray attachment available
- An optional additional weight of 12.5kg and scrubbing brushware available for greater productivity
