Truvox Orbis Ultra High Speed 1500 - 20 Inch 1500rpm Rotary Floor Polisher Complete with Drive Board and Vacuum Skirt

Variant code: 16-OBF501500

Truvox Orbis Ultra High Speed 1500 is a professional **ultra high speed rotary floor polisher** designed to deliver exceptional gloss levels and rapid polishing performance on hard floor surfaces. Operating at an impressive **1500rpm**, this high-speed machine enables cleaning professionals to achieve a brilliant polished finish quickly and efficiently, making it ideal for maintaining prestigious commercial environments.

Unlike traditional rotary polishers, the Orbis Ultra High Speed 1500 operates in a stable straight-line motion using rear and centre wheels, while the pad drive floats smoothly across the floor surface. This innovative design makes the machine remarkably easy to control and significantly lighter in operation, reducing operator fatigue and eliminating the need for specialist training. Capable of polishing floors at normal walking speed, the machine delivers outstanding productivity while producing a high-gloss finish that enhances the appearance of polished floor surfaces.

Supplied complete with a **drive board and vacuum skirt**, the Orbis Ultra High Speed 1500 is specifically designed for buffing and polishing applications. Its efficient operation, lightweight handling and professional polishing results make it an excellent choice for facilities seeking to maintain impressive floor presentation standards with minimal effort.

Product Features

- **1500rpm ultra high speed polishing performance**
- **20 inch (50cm) polishing width**
- Straight-line operating design for simple machine control
- Floating pad drive system for smooth floor contact
- Lightweight operation compared to
