Truvox Palmyra Polish Brush - Floor Polishing Brush for Orbis 200 & 400

Variant code: 16-0534340500

Truvox Palmyra Polish Brush is a **professional floor polishing brush** designed for use with the **Truvox Orbis 200 and Orbis 400 rotary floor machines**. Manufactured using natural **Palmyra fibres**, this high-quality brush is ideal for polishing and buffing hard floor surfaces, helping to restore shine and maintain a professional finish across a wide range of commercial environments.

The natural Palmyra bristles provide gentle yet effective contact with floor surfaces, making the brush particularly suitable for polishing applications where a smooth, consistent finish is required. Designed to work in conjunction with floor maintenance programmes, it helps enhance floor appearance while maintaining protective coatings and finishes.

Engineered for professional cleaning and floor care applications, the brush offers excellent durability and reliable performance when used on compatible Truvox rotary machines. Its robust construction ensures long service life, making it a valuable accessory for facilities managers, contract cleaners and floor care professionals.

Whether used for routine floor maintenance or finishing after cleaning and polishing treatments, the Truvox Palmyra Polish Brush provides dependable results and helps maintain high standards of floor presentation.
