Truvox 12L Solution Tank Kit - For Truvox Orbis Rotary Machines

Variant code: 16-0534680500

Truvox 12L Solution Tank Kit is a **professional solution dispensing accessory** designed specifically for **Truvox Orbis rotary floor machines**. This convenient add-on enables operators to apply cleaning solution directly through the machine during floor maintenance tasks, improving cleaning efficiency and reducing the need for separate solution application methods.

With a generous **12-litre capacity**, the tank provides ample solution storage for extended cleaning sessions, helping to minimise interruptions for refilling and maximise productivity. The integrated dispensing system ensures controlled application of cleaning solution, allowing operators to maintain consistent coverage across the floor surface while achieving optimum cleaning performance.

Designed for seamless integration with compatible Truvox Orbis rotary machines, the solution tank kit is ideal for scrubbing, spray cleaning and floor maintenance applications. The robust construction ensures durability in demanding commercial environments, while the simple installation design allows for quick fitting and removal when required.

Whether used in routine floor cleaning programmes or larger maintenance projects, the Truvox 12L Solution Tank Kit enhances the versatility and performance of Orbis rotary machines, making floor care operations more efficient and productive.

Product Features

- **12-litre solution tank kit**
- Designed for **Truvox Orbis rotary machines**
- Provides controlled solution dispensing
- Suitable for scrubbing and floor maintenance applications
- Durable commercial-grade construction
- Easy to install and remove

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- **Allows cleaning solution to be applied directly during operation**
- **Reduces downtime with large 12L capacity**
- **Improves cleaning efficiency and productivity**
- Ensures consistent solution distribution across floor surfaces
- Enhances the versatility of Orbis rotary machines
- Minimises the need for separate solution application equipment

Technical Characteristics

- Capacity: **12 Litres**
- Product Type: **Solution Tank Kit**
- Compatibility: **Truvox Orbis Rotary Machines**
- Integrated solution dispensing system
- Professional-duty construction
- Genuine Truvox accessory

Applications

Truvox 12L Solution Tank Kit is ideal for **schools, healthcare facilities, offices, retail environments, leisure centres, hotels, warehouses and commercial buildings** where rotary floor machines are used for routine floor maintenance. Suitable for **scrubbing, spray cleaning, floor restoration and general hard floor cleaning tasks**, it provides a practical solution for efficient and controlled cleaning solution application.

Property	Value
Capacity	12 Litres
