

Truvox Pull Cable & Valve: For MW340 (Not Pump Models)

Variant code: 16-9002340000

Truvox Pull Cable & Valve is a **genuine replacement solution control assembly** designed specifically for **Truvox Multiwash 340 scrubber dryers** non-pump models. This essential component controls the flow of cleaning solution from the solution tank to the brushes, ensuring consistent and efficient water delivery during floor cleaning operations.

Manufactured from durable, high-quality materials, the pull cable and valve assembly is built to withstand the demands of daily commercial cleaning. The robust cable mechanism provides smooth operation, while the valve ensures accurate control of solution flow, helping to prevent unnecessary water usage and maintain optimum cleaning performance.

Designed as a direct replacement component, the assembly is quick and easy to install, restoring reliable operation of the solution dispensing system with minimal machine downtime.

Product Features

- **Replacement pull cable and solution control valve assembly**
- Designed for **Truvox Multiwash 340 non-pump models**
- Controls cleaning solution flow to the brushes
- Durable commercial-grade construction
- Smooth cable operation
- Direct replacement component
- Quick and easy installation

Product Benefits

- **Restores reliable cleaning solution control**
- **Maintains consistent solution flow during cleaning**
- **Helps reduce unnecessary water and detergent usage**
- Improves overall scrubber dryer performance
- Durable construction for long service life
- Minimises machine downtime during maintenance

Technical Characteristics

- Product Type: **Pull Cable & Valve Assembly**
- Brand: **Truvox**
- Machine Compatibility: **Truvox Multiwash 340 non-pump models**
- Function: Cleaning solution flow control
- Installation: Direct replacement
- Application: Solution dispensing system

Applications

Truvox Pull Cable & Valve is ideal for **commercial cleaning contractors, healthcare facilities, schools, hospitality venues, retail premises, leisure centres, food production areas and facilities management teams** operating **Truvox Multiwash 340 non-pump models**. It restores accurate solution flow control, ensuring efficient water and detergent dispensing for reliable day-to-day hard floor cleaning performance.

Property	Value
Area of Use	Floor Cleaning Machines, Scrubber Dryers, Commercial Cleaning.
How to Use	Disconnect the machine from the power supply, remove the existing pull cable, install the replacement cable following the machine's service instructions, and check that the control mechanism operates correctly before use.
