Truvox 5L Solution Tank Kit - For Orbis Eco Slow Speed & Dual Speed Machines

Variant code: 16-0550000000

Truvox 5L Solution Tank Kit is a **professional solution dispensing accessory** designed specifically for **Truvox Orbis Eco slow speed and dual speed rotary floor machines**. This practical add-on enables operators to apply cleaning solution directly during floor maintenance tasks, improving cleaning efficiency and ensuring consistent solution coverage across the floor surface.

The kit includes a **5-litre solution tank**, mounting brackets for secure attachment to the machine handle, and a hose assembly that connects the tank to the machine base. The integrated dispensing system is operated via a convenient handle fitted to the tank, allowing operators to control solution application with ease during cleaning operations.

Designed to enhance productivity, the solution tank eliminates the need for separate mopping or manual solution application, helping to streamline floor maintenance tasks. Its durable construction ensures reliable performance in demanding commercial environments while maintaining the manoeuvrability of the Orbis Eco machine.

As a genuine Truvox accessory, the 5L Solution Tank Kit integrates seamlessly with compatible Orbis Eco machines and is particularly effective for floor scrubbing applications where controlled solution delivery is essential for optimum cleaning results.

Product Features

- **5-litre solution tank kit**
- Designed for **Truvox Orbis Eco slow speed and dual speed machines**
- Includes mounting brackets and solution hose
- Handle-operated solution dispensing system
- Provides controlled cleaning solution application
- Genuine Truvox accessory

Product Benefits

- **Applies cleaning solution directly during machine operation**
- **Improves floor scrubbing efficiency and productivity**
- **Ensures consistent solution coverage across the floor**
- Reduces the need for separate solution application methods
- Easy-to-use handle-operated dispensing control
- Enhances the versatility of Orbis Eco rotary machines

Technical Characteristics

- Capacity: **5 Litres**
- Product Type: **Solution Tank Kit**
- Compatibility: **Truvox Orbis Eco Slow Speed & Dual Speed Machines**
- Includes fixing brackets for handle mounting
- Includes solution delivery hose
- Handle-operated dispensing mechanism
- Genuine Truvox accessory

Applications

Truvox 5L Solution Tank Kit is ideal for **schools, healthcare facilities, offices, retail environments, hotels, leisure centres and commercial buildings** where rotary floor machines are used for hard floor maintenance. Particularly suited to **floor scrubbing, deep cleaning and routine hard floor care programmes**, it provides a convenient and efficient method of delivering cleaning solution directly to the floor during operation.

Property	Value
