

Toilet Roll Dispenser – Twin Mini Jumbo – Plastic – White

Variant code: BC595W

Our Twin roll mini jumbo toilet roll dispenser utilises two 150 metre mini jumbo rolls, giving it the same usage as a traditional, larger jumbo size dispenser.

Once one roll is finished, users can easily access the second roll and likewise, staff can fit a new roll with the other still in place. Offering 300 metres worth of roll ensures double the amount of uses before staff need to refill the dispenser, making this model ideal for busy bathroom facilities across shopping centres, airports, restaurants and more.

Durable ABS Construction

Made using durable ABS plastic, the dual toilet roll dispenser can withstand a high number of daily uses as well as providing a higher-than-normal coverage vs a standard mini jumbo dispenser. It is also fitted with a switchable feed system allowing both rolls to be used at the same time.

Key Lockable

Supplied with a key and all fixings for easy installation, added security and ease of use for staff responsible for swapping the rolls over.

- Dimensions: Height 292mm x Width 508mm x Depth 125mm
- Fits 150 metre Mini Jumbo Toilet Rolls
