

UN Clinical Waste Sack – 80L – 8 KG – Orange – Case of 200

Variant code: 18-CL8KG

UN Clinical Waste Sacks are high-strength **80 litre clinical waste disposal bags** designed for the safe, hygienic and compliant handling of hazardous healthcare waste. Manufactured to meet stringent **UN approved standards**, these orange clinical waste sacks provide reliable containment and transportation performance for medical, laboratory and healthcare environments.

Produced from durable high-strength polyethylene, the sacks are engineered to resist tearing, punctures and leaks during use and transportation. Their high-visibility **orange colour** supports correct waste segregation and helps improve safety and compliance in healthcare facilities. Each sack offers a generous **80 litre capacity** with an approved **8kg load rating**, making them suitable for the collection and disposal of infectious waste, pathological waste, pharmaceutical waste and other healthcare-related waste streams requiring specialist handling.

Supplied in a practical **case of 200 sacks**, organised as **8 rolls of 25 bags**, these UN approved waste sacks provide convenient storage, efficient dispensing and dependable bulk supply for busy healthcare and clinical environments.

Product Features

- **UN approved clinical waste sacks**
- **80 litre capacity**
- **8kg approved load rating**
- High-strength polyethylene construction
- Designed to resist punctures, tears and leaks
- High-visibility **orange colour** for waste segregation
- Suitable for compliant clinical waste transportation
- Supplied as **8 rolls of 25 bags**
- **Case quantity: 200 sacks**

Product Benefits

- Supports safe and compliant clinical waste disposal

- Helps reduce risk of contamination and leakage
- Improves waste segregation and workplace safety
- Provides reliable containment for hazardous healthcare waste
- Supports hygiene and infection control procedures
- Offers convenient storage and roll dispensing format
- Provides cost-effective bulk supply for healthcare facilities

Technical Characteristics

- **80L clinical waste sacks**
- **8kg UN approved weight capacity**
- Orange high-strength polyethylene construction
- UN certified for clinical waste transportation
- Suitable for healthcare and laboratory waste disposal
- **25 bags per roll / 8 rolls per box**
- **Case quantity: 200 sacks**

Applications

UN Clinical Waste Sacks are ideal for hospitals, clinics, laboratories, dental practices, veterinary surgeries and healthcare facilities requiring safe and compliant clinical waste disposal solutions. Their UN approved construction, high-capacity design and durable leak-resistant performance make them particularly suitable for environments handling infectious and hazardous healthcare waste streams.
