

UN Clinical Waste Sack – 8kg – Case of 200/80L (25 Bags per Roll/8 Rolls per Box) – Orange

Variant code: 18-CL8KG

Ensure Safe and Compliant Clinical Waste Disposal with Our High-Quality UN Approved Orange Waste Sacks

Effectively manage and dispose of clinical waste with our robust and reliable **UN Clinical Waste Sacks**. This convenient case contains **200 high-visibility orange waste bags**, providing a practical and compliant solution for hospitals, clinics, laboratories, dental practices, veterinary surgeries, and any healthcare or research environment generating potentially hazardous waste.

Each sack boasts a generous **80-litre capacity**, allowing for the efficient collection of various types of clinical waste. Manufactured to stringent **UN standards**, these sacks are rigorously tested and certified to safely contain and transport waste materials, ensuring compliance with environmental regulations and minimising the risk of spills or contamination.

Key Features and Benefits:

- **UN Approved:** Certified to meet international standards for the transportation of clinical waste, providing peace of mind and ensuring regulatory compliance.
- **High Visibility Orange:** Clearly identifiable **orange colour** ensures proper segregation of clinical waste, enhancing safety and streamlining waste management processes.
- **Durable and Puncture-Resistant:** Constructed from high-quality, strong polyethylene material, these sacks offer excellent resistance to tearing and puncturing, preventing leaks and containing waste effectively.
- **Optimal Size:** The **80-litre capacity** is ideal for handling significant amounts of clinical waste, reducing the frequency of bag changes.
- **Convenient Packaging:** Supplied in a **case of 200 bags**, organised into **8 rolls of 25 bags each**, for easy storage and

dispensing.

- **Secure Closure:** Designed to be securely tied and sealed, preventing the escape of waste and odours during storage and transportation.
- **Essential for Hygiene:** Crucial for maintaining a clean and hygienic environment, protecting staff, patients, and the public from potential health hazards associated with clinical waste.
- **Cost-Effective Solution:** The bulk case of 200 provides an economical solution for managing your clinical waste disposal needs.

Ideal for Disposal of:

- Infectious waste (e.g., contaminated dressings, swabs)
- Sharps waste (when used with appropriate sharps containers placed inside)
- Pathological waste
- Pharmaceutical waste
- Cytotoxic and cytostatic waste
- Other healthcare-related waste requiring specific disposal procedures
