Unger Microfibre Washing Pad - 20cm - Pack of 5

Variant code: 13-PHW20

The **Unger Microfibre Wash Pad - 20cm** is a professional cleaning pad designed for **periodic washing and the removal of heavy soil**. Its thick fibre construction provides the cleaning action required to tackle **coarse and tough dirt** during indoor cleaning tasks.

The pad features **15mm-long, thick fibres** that help loosen and remove stubborn dirt from surfaces. Manufactured from **100% polyethylene**, it is specifically designed as a washing pad for more intensive cleaning applications.

A **strong hook-and-loop backing** allows the pad to be securely attached to compatible Unger pad holders. It is suitable for use with the **PHH20 Pad Holder** and **PHD20 Handheld Pad Holder**, providing flexibility for different professional cleaning applications.

Product Features

- **20cm microfibre wash pad** for professional cleaning
- Designed for **periodic washing and heavy soil**
- Features **15mm-long, thick fibres**
- Designed to easily remove **tough dirt**
