V-Air® SOLID MVP Dispenser - White

Variant code: 06-VDISP

V-Air® SOLID Evolution MVP Passive Air Freshener Dispenser - White is a **wall-mounted passive air freshener dispenser** designed to provide continuous fragrance delivery in commercial washrooms, offices and shared indoor environments. Featuring a sleek white finish and an innovative **open-sided design**, the dispenser encourages natural airflow around compatible solid fragrance refills, helping distribute a pleasant scent throughout the surrounding area. Its **battery-free and aerosol-free operation** provides a simple, low-maintenance alternative to conventional automatic air freshener systems.

Designed for use with **V-Air® SOLID Evolution refills**, the dispenser supports advanced **multi-phasing air freshener technology** that combines a seaweed-derived organic core with an outer fragrance component. The compatible refills contain **carrageenan, a material extracted from red seaweed**, alongside a recyclable EVA cartridge and sub-micron fragrance technology. This dual-component system helps deliver fragrance gradually, using natural airflow rather than batteries, electrical power or aerosol propellants. When used with suitable Evolution refills, the dispenser supports a **fragrance programme lasting up to 60 days**, depending on environmental conditions.

The **V-Air® SOLID MVP dispenser** features a compact, practical design that makes installation and routine servicing straightforward. Its **open-sided construction** maximises airflow around the refill, while the wall-mounted format keeps the air freshening system conveniently positioned away from work surfaces. Measuring approximately **63mm deep x 70.1mm wide x 144mm high**, the dispenser is suitable for a wide range of indoor locations. Compatible with **V-Air® SOLID, V-Air® SOLID Evolution and Vaze® passive fragrance refills**, it offers flexibility across supported 30-day and 60-day fragrance programmes without the need for batteries, liquid reservoirs or powered spray mechanisms.

Product Features

- **Passive air freshener dispenser** for

- **Compatible multi-phasing refills** support consistent fragrance release
- **Up to 60-day refill life** helps reduce frequent servicing requirements
- **Organic seaweed-derived refill technology** offers an innovative passive fragrance system
- **Compatibility with recyclable refill cartridges** supports more considered material use
- **No liquid handling** simplifies routine fragrance replacement
- **Compact wall-mounted format** helps keep washroom surfaces clear
- **White finish** provides a discreet and professional appearance
- **Multiple compatible refill ranges** offer flexibility in fragrance selection
- **Quick servicing** helps reduce routine maintenance time
- **Suitable for busy facilities** requiring straightforward air care management

Technical Characteristics

- **Product Range:** V-Air® SOLID MVP
- **Product Type:** Passive Air Freshener Dispenser
- **Primary Function:** Indoor Fragrance Dispensing
- **Secondary Function:** Fragrance-Based Odour Management
- **Dispenser Colour:** White
- **Dispenser Format:** Compact Passive Cabinet
- **Installation Type:** Wall Mounted
- **Dispenser Design:** Open-Sided Airflow Housing
- **Operating Principle:** Natural Airflow
- **Fragrance Dispensing Method:** Passive Diffusion from Compatible Refills
- **Battery Requirement:** None
- **Electrical Power Requirement:** None
- **Aerosol Propellants Required:** No
- **Liquid Fragrance Reservoir:** Not Required
- **Automatic Spray Mechanism:** None
- **Compatible Refill:** V-Air® SOLID Evolution
- **Compatible Refill:** V-Air® SOLID
- **Compatible Refill:** Vaze®
- **Supported Fragrance Programmes:** 30-Day and 60-Day, Depending on Refill
- **Evolution Refill Technology:** Multi-Phasing Fragrance Release
- **Evolution Refill Core:** Carrageenan-

Based
- **Evolution Refill Core Origin:** Red Seaweed
- **Evolution Refill Cartridge Material:** Recyclable EVA
- **Evolution Refill Fragrance Technology:** Sub-Micron Fragrance Delivery
- **Approximate Height:** 144mm
- **Approximate Width:** 70.1mm
- **Approximate Depth:** 63mm
- **Operating Noise:** No Motorised Spray Mechanism
- **Refill Replacement:** Manual Cartridge Replacement
- **Fragrance Duration:** Determined by Compatible Refill
- **Fragrance Performance:** Dependent on Airflow and Environmental Conditions
- **Suitable Environment:** Commercial Washrooms
- **Suitable Environment:** Offices and Reception Areas
- **Suitable Environment:** Hotels and Hospitality Facilities
- **Suitable Environment:** Changing Rooms and Communal Spaces
- **Disinfectant Function:** None
- **Pack Quantity:** 1 Dispenser
- **Refill Included:** Not Specified; Order Separately Unless Confirmed
- **Maintenance:** Periodic Refill Replacement and Dispenser Cleaning
- **Intended Use:** Passive Indoor Air Freshening

Applications

Ideal for **passive air freshening, continuous fragrance delivery and indoor odour management** in commercial washrooms, offices, hotels, restaurants, schools, universities, leisure centres, gyms, changing rooms, reception areas, corridors, shopping centres and public facilities. Designed to accommodate **V-Air® SOLID Evolution and other compatible passive fragrance refills**, the dispenser uses natural airflow to distribute fragrance without batteries, electrical connections, liquid reservoirs or aerosol propellants. Its **open-sided design** supports effective fragrance circulation, while its compact white housing provides a discreet wall-mounted installation. When paired with **V-Air® SOLID Evolution multi-phasing refills**, the dispenser supports long-lasting fragrance programmes of up to 60 days, making it particularly suitable for facilities seeking a practical, low-maintenance air
