

V-Screen Urinal Deodorisers – Pack of 12 – Yellow – Citrus Mango

Variant code: 05-516

Vectair V-Screen Urinal Deodorisers are **fragranced anti-splash urinal screens** designed to improve washroom freshness, reduce unpleasant odours and help prevent drain blockages. Featuring a **strong Citrus Mango fragrance**, these urinal mats combine effective odour control with a practical debris-catching design, helping maintain cleaner and more pleasant washroom environments in busy commercial and public facilities.

Each screen incorporates a **malodour eliminating substance** that helps neutralise unpleasant smells within the urinal, alongside an additional fragrance additive that releases a refreshing blend of **tropical mango and citrus notes for up to 30 days**. The innovative **angled anti-splash texture and unique web design** help minimise splash-back, keeping the surrounding urinal area cleaner and reducing unnecessary cleaning and maintenance.

The flexible screen fits over the urinal waste outlet, acting as a protective barrier that catches **chewing gum, paper and other debris** before they enter the drainage system. Its **anti-slip design** helps keep the screen securely positioned, while the integrated **service handle** allows quick and easy replacement. Supplied in a **pack of 12 screens**, the Yellow Citrus Mango variant provides a cost-effective solution for routine washroom maintenance.

Product Features

- **Strong Citrus Mango fragrance** with refreshing tropical mango and citrus notes
- **Malodour eliminating technology** helps neutralise unpleasant urinal smells
