Vileda UltraSpeed Pro Micofibre Mopping Kit

Variant code: 15-416

The **Vileda UltraSpeed Pro Microfibre Mopping Starter Kit** is a professional floor cleaning system designed to make everyday mopping **faster, cleaner and easier**. Built around a practical **25-litre bucket system**, the kit provides the essential components required for efficient professional floor cleaning in one convenient package.

The kit includes the **25L bucket system with chassis and wringer, mop frame and r-Microlite Max microfibre mop**. The innovative UltraSpeed Pro press provides efficient wringing while eliminating the need to manually touch the mop during the wringing process, helping support cleaner and more convenient working practices.

The patented press is engineered for both **speed and effective moisture removal**. Independent testing found that the wringing process takes an average of approximately **12 seconds**, while the press removes **over 40% of solution from the mop**. Controlling excess moisture helps floors dry more quickly and allows the operator to adjust how wet the mop remains for different cleaning requirements.

Product Features

- **Professional microfibre mopping starter kit**
- **25-litre UltraSpeed Pro system**
- Includes **chassis, bucket and wringer**
- Includes **mop frame**
- Includes **r-Microlite Max microfibre mop**
- **Patented UltraSpeed Pro press** for fast and efficient wringing
- **Innovative press lever** allows control over how wet the mop remains
- Wringing process takes an average of approximately **12 seconds**
- Press removes **over 40% of solution from the mop**
- Wringing process requires **no manual touching of the mop**
- **No gears or complicated mechanisms** within the press

- Press is easy to **fit and remove** for filling and cleaning
- **Integrated handle holders** securely hold the mop handle when not in use
- **High-back wringer design** allows easy entry of the mop

Product Benefits

- **Fast wringing process helps improve productivity during professional floor cleaning**
- **Efficient moisture removal helps reduce excess water on floors and supports faster drying**
- **Hands-free wringing eliminates the need to manually touch the mop during the wringing process**
- Adjustable moisture control allows the operator to **control how wet the mop remains**
- Simple press construction without complicated gears helps provide a **practical and reliable cleaning system**
- Removable press makes the bucket **easier to fill and clean after use**
- **Integrated handle holders** provide convenient storage of the mop handle between cleaning tasks
- Complete starter kit provides the key components required for **professional microfibre floor mopping**

Technical Characteristics

- **Product Type:** Professional Microfibre Mopping Starter Kit
- **System:** UltraSpeed Pro
- **Bucket Capacity:** 25L
- **Mop Type:** r-Microlite Max Microfibre Mop
- **Wringing System:** Patented Lever-Operated Press
- **Average Wringing Time:** Approximately 12 Seconds
- **Solution Removal:** Over 40%
- **Kit Components:** Chassis, 25L Bucket, Wringer, Mop Frame & r-Microlite Max Mop
- **Handle Storage:** Integrated Handle Holders
- **Press Removal:** Removable for Filling & Cleaning

Applications
