Vileda Ultraspeed Mini Microfibre Mopping Kit - Blue

Variant code: 15-USM-B

The **Vileda UltraSpeed Mini Microfibre Mopping Starter Kit** is a compact professional floor cleaning system specifically designed for **small-area cleaning tasks**. It brings the ergonomic, performance and hygiene benefits of the larger UltraSpeed Pro range into a smaller and more convenient format, making it particularly well suited to locations where storage space and manoeuvrability are important.

The system combines a compact **10L bucket with bionic press wringer**, a flat **mop frame** and a **microfibre MicroMop**. Its compact design makes the system easy to handle in confined areas while providing the benefits of professional flat mopping for efficient everyday floor cleaning.

Designed for versatility, the UltraSpeed Mini system can be used for more than routine floor cleaning. Its compact **34cm flat mop format** is suitable for cleaning areas including **walls, kitchen and toilet tiling, staircases, skirting and safety floors**, while its manoeuvrability makes it particularly useful for cleaning behind pipes and toilets and dealing with quick spill pick-ups.

Product Features

- **Compact professional microfibre mopping starter kit**
- Specifically developed for **small-area cleaning**
- Includes a **10L bucket**
- Features a **bionic press wringer**
- Includes a **flat mop frame**

Product Benefits

- **Compact 10L system provides a practical professional cleaning solution for smaller premises and confined areas**
- **Flat microfibre mopping system provides greater versatility than traditional small-area socket mop systems**
- **Compact mop format improves manoeuvrability around toilets, pipes, furniture and other obstacles**
- The combination of **wringer, mop frame and mop pad** is designed to support faster cleaning, dirt removal and floor drying
- Versatile design allows the system to tackle **floors and a variety of other surfaces**
- **Bionic press wringer** provides a convenient method of wringing the mop during cleaning
- Compact dimensions make the system suitable for locations where **larger professional mopping systems may be impractical**
- Complete starter kit provides the core equipment required for **professional small-area microfibre mopping**

Technical Characteristics
