Evans EC Concentrate Bottle - Wall Bracket - 1L

Variant code: 14-WBRACK

Evans Wall Bracket for 1L EC Concentrate Bottles is a practical storage and mounting solution developed by Evans Vanodine for use with compatible EC concentrate bottles. Designed to support organised and efficient cleaning operations, it provides secure wall-mounted bottle positioning within professional cleaning environments.

Compatible with the Evans EC range of 1L concentrate bottles, the bracket helps improve accessibility while supporting structured and colour-coded cleaning systems. Its wall-mounted design assists with reducing clutter, improving bottle visibility and helping maintain safer and more organised cleaning stations in commercial environments.

Manufactured for routine professional use, the bracket provides a convenient solution for storing cleaning concentrates in areas where quick access and efficient workflow management are important.

Product Features

- **Wall bracket** for Evans EC 1L concentrate bottles
- Designed for secure wall-mounted bottle storage
- Compatible with the **Evans EC concentrate range**
- Supports organised and colour-coded cleaning systems
- Durable construction for professional environments
- Helps improve bottle accessibility and visibility
- Suitable for commercial cleaning stations and storage areas

Product Benefits

- Improves organisation within cleaning environments
- Helps reduce clutter in storage and preparation areas
- Supports efficient access to cleaning concentrates

- Enhances workflow management for cleaning staff
- Assists with structured and colour-coded cleaning systems
- Helps maintain safer and tidier workspaces
- Suitable for high-use professional environments

Technical Characteristics

- Designed for use with **1L Evans EC concentrate bottles**
- Wall-mounted installation format
- Durable construction suitable for routine commercial use
- Suitable for cleaning cupboards, janitorial stations and washrooms
- Allows quick bottle insertion and removal
- Clean using appropriate non-abrasive cleaning methods
- Follow manufacturer installation guidance during fitting

Applications

The **Evans EC Concentrate Bottle Wall Bracket** is suitable for use in **commercial cleaning environments, healthcare facilities, schools, hospitality venues and janitorial stations** where organised chemical storage is important. It is ideal for supporting structured cleaning systems by providing secure and accessible bottle storage for frequently used concentrates. Its compatibility with the Evans EC range makes it particularly suitable for facilities implementing colour-coded cleaning programmes and controlled cleaning operations.
