Washproof Plaster Fingertip - Box of 50

Variant code: 21-86927

Microplast washproof plasters provide a skin coloured material that protects the wound from water. The breathable material ensures comfort and flexibility, adapting to skin movements during wear. Featuring a non-adherent absorbent wound pad, these hypoallergenic and latex-free plasters are gentle on the skin. Microplast's washproof plasters, ideal for minor wounds and scratches, meet Class I standards under the Medical Devices directive. Each plaster is a non-invasive device, individually packed for convenience, with an absorbent pad aiding in blood and exudate absorption. The conformable adhesive backing ensures a secure fit. Microplast's extensive plaster range guarantees safety, reliability, and non-toxicity for single-use applications, with a 5-year shelf life. Clear labelling and the CE registration mark offer traceability and quality assurance. Upgrade your first aid essentials with Microplast washproof plasters. Available in multiple shapes and sizes.
