

Werner High Handrail Step Ladder – 2 Tread

Variant code: 14-SL2T

The **Werner High Handrail Step Ladder** is a robust and lightweight **2-tread stepladder** designed to provide safe and comfortable access for a wide range of professional and domestic tasks. Manufactured to the **EN131 Professional** standard, this high-quality aluminium ladder features an extended safety handrail for increased user confidence when working at height, making it ideal for trade professionals, maintenance teams and everyday users alike.

Constructed from durable yet lightweight aluminium, the ladder is easy to transport and manoeuvre without compromising strength. The large, slip-resistant treads provide secure footing, while the extra-high handrail offers additional support when climbing, standing and descending. Wide non-slip feet enhance stability on a variety of floor surfaces, and the folding design allows for compact storage and convenient transportation between jobs.

Built to Werner's renowned quality standards, this EN131 Professional stepladder delivers dependable performance for frequent use in commercial, industrial and residential environments. Its compact size makes it ideal for everyday maintenance, decorating and installation work where safe, reliable access is essential.

Product Features
