Windmill 73% Alcohol Hand Sanitiser - 5L

Variant code: 10-208

Windmill 73% Alcohol Hand Sanitiser is a professional hand hygiene solution designed to deliver **rapid and effective hand sanitising** in hygiene-critical environments. Developed for frequent use, it combines high alcohol content with skin-conditioning agents to provide effective sanitisation without compromising skin comfort.

This formulation contains **73% alcohol** and is proven to pass **EN14476, EN1276 and EN1500 standards**, providing effective protection against a wide range of common organisms and enveloped viruses. Its fast-acting formula quickly sanitises hands without the need for water, making it suitable for environments where immediate hand hygiene is essential.

Built-in **skin conditioners help prevent skin drying**, ensuring the product remains comfortable for repeated use throughout the day. The sanitiser leaves **no sticky residue**, maintaining a clean and pleasant feel after application.

Non-tainting and suitable for **food preparation areas**, the product is ideal for use in healthcare, care services, catering and professional workplaces. Supplied in a **5L format**, it is suitable for refill systems and high-use environments requiring dependable sanitising performance. Manufactured in the UK.
