

Windmill Bio Washing Powder – 10kg (135 Washes)

Variant code: 08-100

Windmill Bio Washing Powder is a professional **laundry detergent** developed for effective cleaning across a wide range of fabrics in both commercial and domestic environments. Manufactured under the trusted Windmill brand, this formulation is designed to deliver consistent wash results while supporting efficient machine operation. The controlled foam, low lather formulation makes it suitable for use in both **front and top loading washing machines**, ensuring reliable performance without excessive foam build-up.

Formulated to tackle everyday soiling, this biological washing powder is **highly effective on stains**, helping to break down and remove common dirt, grease and organic residues. In addition to machine use, it is also suitable for **hand washing applications**, providing flexibility across different laundry processes. Its balanced formulation supports consistent cleaning performance while maintaining fabric condition when used as directed.

Product Features

- **Biological laundry detergent** for effective stain removal
- **Controlled foam, low lather formulation**
- Suitable for **front and top loading washing machines**
- Effective on a wide range of common stains and soiling
- Suitable for both machine washing and **hand washing**
- Designed for consistent performance in professional laundry environments
- Powder format for easy dosing and storage

Product Benefits

- Delivers reliable cleaning results across a variety of fabric types
- Reduces foam build-up to support efficient machine operation
- Improves stain removal performance during standard wash cycles
- Provides flexibility for both manual and

- machine washing processes
- Supports consistent results in high-use laundry environments
- Helps maintain fabric cleanliness and presentation
- Suitable for routine use in commercial and domestic settings

Technical Characteristics

- Designed for use in **front and top loading washing machines**
- Controlled foam formulation supports efficient rinsing and drainage
- Suitable for hand washing when diluted appropriately
- Use in accordance with manufacturer dosing guidance
- Adjust dosage based on load size and level of soiling
- Store in a cool, dry environment away from moisture
- Follow safety and handling guidance during use

Applications

The **Windmill Bio Washing Powder** is suitable for use in commercial laundries, care environments, hospitality settings, and domestic households where effective and reliable cleaning is required. It is ideal for washing everyday items such as clothing, linens, towels and workwear. Its low foam formulation makes it particularly suitable for use in machine washing environments, while its versatility also allows for hand washing where required, making it a practical solution for a wide range of laundry applications.

Property	Value
Fragrance	Pleasant
pH	9.5-10
Area of Use	For Laundry machine and Hand washing purposes
CLP	irritant
Chemical Colour	White
Machine Washing	For normal soiling use 1 scoop or for heavy soiling use 2 scoops (both for nominal 5kg load) (1 scoop = 135 grams)

Property**Value**

Hand Washing

Dissolve 1 scoop (135 grams) in 10 litres of water. Ensure powder is fully dissolved. After washing, rinse and dry hands thoroughly; avoid prolonged contact. The use of rubber gloves is recommended.
