Windmill Eliminator - Extreme Alcohol Rinse-Free Sanitiser - 750ml

Variant code: 06-570

Windmill Eliminator is an alcohol rinse-free surface sanitiser designed to deliver **rapid cleaning and effective hygiene control** across a wide range of environments. As part of the Windmill professional cleaning range, it provides a fast-acting solution for sanitising surfaces without the need for rinsing, making it ideal for time-sensitive cleaning tasks.

The formulation utilises alcohol-based technology to provide quick evaporation and fast drying, ensuring surfaces are left clean and ready for immediate use. It is suitable for application on **frequently touched surfaces** such as worktops, door handles, equipment and washroom fixtures, supporting hygiene standards in busy environments. The rinse-free design simplifies cleaning routines, reducing downtime and improving efficiency.

Windmill Eliminator is proven to be **bactericidal to BS EN 1276 and BS EN 13697**, as well as **yeasticidal and mycobactericidal**, providing reliable performance in environments where hygiene is critical. The ready-to-use formulation ensures consistent application without dilution, supporting accurate and effective use.

Product Features

- Alcohol-based **rinse-free surface sanitiser**
- Rapid drying for immediate surface use
- Proven **bactericidal performance to BS EN 1276 & EN 13697**
- Yeasticidal and mycobactericidal action
- Suitable for **frequently touched surfaces**
- Ready-to-use spray application

Product Benefits

- Enables fast and efficient cleaning processes
- Supports high standards of hygiene control
- Reduces downtime with rinse-free

formulation
- Ensures consistent and reliable sanitising results
- Suitable for a wide range of environments
- Helps maintain clean and safe surfaces

Technical Characteristics

- Alcohol-based formulation for fast evaporation
- Designed for ready-to-use application
- Suitable for water-washable and compatible surfaces
- Compatible with spray-and-wipe cleaning methods
- Supplied in trigger spray format
- Use in accordance with manufacturer guidelines

Applications

Windmill Eliminator is suitable for use in **commercial, industrial and institutional environments**, including healthcare settings, food preparation areas, offices and public buildings. It is particularly effective in areas where **rapid sanitising and minimal downtime** are required, such as high-contact surfaces and shared spaces. Its rinse-free, fast-drying formulation makes it ideal for maintaining hygiene in busy, high-traffic environments.

Property	Value
