Windmill Fabric Conditioner - Laundry Fabric Softener - 5L

Variant code: 08-115

Windmill Fabric Conditioner is a laundry fabric softener designed to deliver **enhanced softness and freshness** across a wide range of fabrics. Suitable for professional and domestic use, it helps improve fabric feel while maintaining a clean and pleasant finish after washing.

This formulation provides a **spring fresh fragrance**, leaving laundry smelling clean and refreshed. It works by conditioning fibres during the rinse cycle, helping to reduce stiffness and improve overall fabric comfort.

Suitable for use with **automatic and non-automatic washing machines**, as well as for **hand washing**, the product offers flexibility across different laundry processes. It is compatible with a wide range of fabrics, supporting consistent results in various washing conditions.

Supplied in a **5L format**, it is ideal for high-use environments requiring reliable and cost-effective fabric conditioning performance.
