

## Windmill Invincible Virucidal Surface and Washroom Bactericidal Cleaner – 5L

Variant code: 05-280

**Windmill Invincible Virucidal Surface and Washroom Bactericidal Cleaner** is developed to deliver **high-level cleaning and sanitising performance** across a wide range of environments. As part of the Windmill professional cleaning range manufactured by Selden, it is formulated to support strict hygiene standards while remaining suitable for everyday use. Designed as an essential product in the **fight against cross infection**, it is particularly suited to environments where cleanliness and infection control are critical.

The formulation is effective against a broad spectrum of viruses and bacteria, including **Coronavirus, Influenza Type A (Swine Flu), HIV, Hepatitis C and MRSA**, as well as common food poisoning bacteria. It is independently certified to **EN 1276, EN 14476 and EN 1650 standards**, providing reassurance of its performance in professional hygiene applications. The product is suitable for cleaning and sanitising **frequently touched surfaces** such as door handles, tables and banisters, as well as for general floor cleaning.

Manufactured in the UK to **ISO 9001, ISO 14001 and ISO 18001 standards**, Windmill Invincible ensures consistent quality and compliance. The formulation is **bleach-free, non-hazardous and non-toxic**, making it safe for use on all common water-washable surfaces while still delivering powerful sanitising action. It is also **pleasantly perfumed**, leaving a fresh and clean fragrance after use.

Supplied in a **5L format**, it is ideal for high-use environments requiring a reliable and cost-effective cleaning and sanitising solution.

---

### Product Features

- Virucidal and bactericidal cleaner for surface and washroom use
- Effective against **Coronavirus, Influenza, HIV, Hepatitis C and MRSA**
- Certified to **EN 1276, EN 14476 and EN 1650**

- Suitable for **frequently touched surfaces and floors**

- Leaves a **fresh, clean fragrance after use**
- Manufactured in the UK to **ISO certified standards**

---

## Product Benefits

- Supports effective **infection control in high-risk environments**
- Provides reassurance with certified antimicrobial performance
- Reduces need for multiple cleaning and sanitising products
- Safe for use across a wide range of surfaces
- Enhances hygiene standards in shared and public spaces
- Improves cleaning efficiency in routine maintenance

---

## Technical Characteristics

- Suitable for use on **all common water-washable surfaces**
- Designed for cleaning and sanitising in one application
- Compatible with **mops, cloths and general cleaning equipment**
- Certified against a wide range of viruses and bacteria
- Manufactured to recognised **ISO quality and environmental standards**
- Requires use in accordance with manufacturer guidelines

---

## Applications

Windmill Invincible is suitable for use in **care homes, healthcare environments, schools, sports facilities, gyms, hotels and public buildings**, as well as animal handling areas. It is particularly effective in locations where **high-contact surfaces and infection control are a priority**, such as washrooms, communal areas and frequently used equipment. Its combination of virucidal performance, safety profile and ease of use makes it ideal for both routine cleaning and enhanced hygiene protocols in professional environments.
