

Windmill Hard Water Dishwasher Detergent – 5L

Variant code: 04-950

An advanced formulated machine dishwash detergent with a unique blend of detergents for accelerated soil removal. Active defoamers work in the toughest of conditions. Whilst progressive corrosion inhibitors protect dishwasher parts. Suitable for all water hardnesses.

Remove food scraps from dishes before racking. Normally a concentration of 0.14% – 0.33% (1400ppm – 3300ppm) is used, dependent on level of soiling and water hardness.

The temperature of the wash cycle should be at least 60°C. Results are enhanced by use of Windmill Rinse Aid in the final rinse.

NB DO NOT USE on Aluminium, Lead crystal or hand painted china. Protect from frost.

Property	Value
Colour	Clear
Fragrance	Odourless
Dilution	Use as per appliance requirements
pH	13
Area of Use	Dishwasher
CLP	corrosive
How to Use	Remove food scraps from dishes before racking. Temperature of cycle should be 60°C+
Chemical Colour	Yellow
