Windmill Machine Rinse Aid - Hard Water Dishwash - 20L

Variant code: 04-825

Windmill Machine Rinse Aid is a concentrated rinse additive designed to deliver **spot-free drying and enhanced finishing performance** in commercial dishwashing systems. Suitable for use in a wide range of automatic machines, it ensures consistent results across varying operating conditions.

This low foaming formulation is effective in **all water conditions**, helping to produce **sparkling crockery, cutlery and streak-free glassware**. It promotes rapid drying by reducing water spotting and residue, leaving items clean and ready for immediate use.

Designed for use in **enclosed cabinet dishwashers**, the product works in conjunction with machine detergents to improve overall wash performance. Its controlled formulation ensures reliable operation without excessive foam, supporting efficient machine cycles.

Suitable for use in **all dishwashing machines**, it provides consistent results regardless of water hardness. Supplied in a **20L format**, it is ideal for high-volume catering and hospitality environments requiring dependable and economical rinse performance.

Product Features

- Concentrated **machine rinse aid**
- Suitable for **all water conditions**
- Provides **spot-free and streak-free finish**
- Low foaming formulation for efficient operation
- Promotes **rapid drying** of crockery and glassware
- Compatible with most commercial dishwashers

Product Benefits

- Ensures sparkling and professional finish
- Reduces drying time and improves efficiency
- Minimises spotting and streaking on glassware

- Maintains consistent performance across water types
- Supports smooth operation of dishwashing systems
- Ideal for high-use commercial environments

Technical Characteristics

- Concentrated rinse additive for **automatic dishwashing systems**
- Suitable for use in **enclosed cabinet dishwashers**
- Effective in both **soft and hard water conditions**
- Low foam formulation for machine compatibility
- Designed for controlled dosing via machine systems
- Use in accordance with manufacturer guidelines

Applications

Windmill Machine Rinse Aid is suitable for use in **commercial kitchens, catering environments, hospitality venues and food service operations**. It is ideal for ensuring **spot-free drying and a high-quality finish** on crockery, cutlery and glassware, helping maintain professional presentation standards in high-volume operations.

Property	Value
Fragrance	Characteristic
Volume (L)	20
pH	2.5
Dilution	Normally a concentration of 0.25-0.5 ml/l is used, dependent on level of water hardness.
Area of Use	Dishwashers
How to Use	The temperature of the wash cycle should be at between 80 - 90°C. PROTECT FROM FROST
Chemical Colour	Blue
