Windmill Odour Force Lemon - Enzyme Deodoriser - 10L - Windmill Refill

Variant code: 07-620

Windmill Odour Force Lemon - Enzyme Deodoriser - 10L - Windmill Refill is an enzyme deodoriser designed to deliver **effective odour elimination and cleaning performance** across a wide range of environments. As part of the Windmill professional cleaning range, it uses **enzymatic action** to break down organic soiling and stains, helping to remove odours at source rather than masking them.

Formulated as a natural and effective odour eliminator, the product targets organic contamination such as vomit, urine, food waste and other protein-based residues. The enzyme-based formulation works by digesting these materials, ensuring thorough cleaning while providing **long-lasting odour control**. Its **powerful citrus scent** delivers immediate freshness, making it particularly suitable for areas affected by strong or persistent odours.

The product is safe for use on **all types of absorbent surfaces**, including carpets and fabrics, making it highly versatile across multiple cleaning tasks. It is especially effective when used on protein-based stains such as vomit, urine, eggs, milk, wine and meat, providing both cleaning and deodorising performance in a single application.

Supplied in a **10L refill format**, it is ideal for high-use environments where reliable performance and cost efficiency are essential.

Product Features

- Enzyme-based deodoriser with **natural odour eliminating action**
- Breaks down organic soiling and stains at source
- Effective on **protein-based contamination**
- Suitable for **absorbent surfaces including carpets and fabrics**
- Provides **long-lasting odour control**
- **Powerful citrus fragrance** for immediate freshness

Product Benefits

- Eliminates odours at source rather than masking them
- Improves hygiene and cleanliness in affected areas
- Reduces need for multiple cleaning products
- Suitable for a wide range of cleaning and deodorising tasks
- Helps maintain a fresh and pleasant environment
- Supports efficient and consistent cleaning routines

Technical Characteristics

- Suitable for **absorbent and porous surfaces**
- Designed for use on **organic and protein-based stains**
- Utilises **enzyme-based cleaning technology**
- Compatible with manual cleaning methods
- Supplied in bulk format for professional use
- Requires use in accordance with manufacturer guidelines

Applications

Windmill Odour Force Lemon is suitable for use in **commercial, industrial and institutional environments**, including washrooms, care homes, hospitality venues and public facilities. It is particularly effective in areas affected by **organic contamination and strong odours**, such as carpets, upholstery and washroom surfaces. Its ability to break down protein-based stains makes it ideal for maintaining hygiene and freshness in high-traffic and odour-prone environments.

Property	Value
Fragrance	Lemon
pH	7
Volume (L)	10
Area of Use	Washrooms and absorbant surfaces
Dosing Chart: Trigger Dilution	dosing:4

Tel: 01626 355177
Email: info@aukhygiene.com

Property	Value
CLP	corrosive
How to Use	Trigger spray/foamer: Dilute 1:5. Apply directly to the area of soiling and leave to air dry, do not rinse. Repeated application may be required. Do not use sanitisers as these will kill the enzyme activity.
Chemical Colour	Colourless
Eco Product	Yes
