# Windmill Odour Fresh Cherry - Bactericidal Deodoriser - 10L - Windmill Refill

**Variant code: 07-610**

**Windmill Odour Fresh Cherry is a bactericidal deodoriser** designed to deliver effective odour control and hygiene across a wide range of environments. As part of the Windmill professional cleaning range, it combines powerful deodorising performance with bactericidal action, helping to eliminate unpleasant odours while maintaining clean and hygienic conditions.

A powerful bactericidal deodoriser with a cherry fragrance, it is formulated to remove odours and kill a wide range of germs caused by pets, urine, faeces, vomit, smoke and foodstuffs. The product works by neutralising odour sources rather than simply masking them, leaving a long-lasting fresh cherry fragrance after application.

Suitable for use on **carpets, fabrics and soft furnishings** that can be wet cleaned, the formulation provides flexibility across multiple applications. It can be used in a range of dilutions, from neat in extreme cases to diluted up to 1:100 for general freshening. Simply dilute with water and apply using a spray onto carpets, curtains or upholstery to achieve effective results.

Supplied in a **10L refill format**, it is ideal for high-usage environments requiring a reliable and cost-effective deodorising solution.

## Product Features

- Bactericidal deodoriser with **cherry fragrance**
- Removes odours and kills a wide range of germs
- Suitable for **carpets, fabrics and soft furnishings**
- Effective against odours caused by organic contamination
- Can be used **neat or diluted up to 1:100**
- Easy application via spray after dilution

## Product Benefits

- Eliminates odours at source rather than masking them
