

## Windmill Pine Disinfectant – 5L

**Variant code: 05-400**

**Windmill Pine Disinfectant** is a disinfectant cleaner designed to deliver **effective cleaning and hygiene control** across a wide range of environments. As part of the Windmill professional cleaning range, it provides a reliable solution for maintaining clean and fresh conditions in both commercial and institutional settings.

The formulation combines cleaning performance with disinfectant action, helping to remove dirt, grease and general soiling while reducing the presence of bacteria on treated surfaces. It is suitable for use on a variety of hard, water-washable surfaces, making it a versatile option for routine cleaning tasks. The product also leaves a **fresh pine fragrance**, enhancing the environment after use.

Designed for flexible application, Windmill Pine Disinfectant can be used for both general cleaning and more targeted hygiene tasks. It integrates easily into standard cleaning routines and is suitable for use with mops, cloths and other common cleaning equipment.

---
