Windmill Synergy Multipurpose - Biological Multipurpose Cleaner - 5L - Windmill Refill

Variant code: 07-800

Windmill Synergy Multipurpose is a biological multipurpose cleaner designed to deliver **effective cleaning, deodorising and ongoing odour control** across a wide range of surfaces. As part of the Windmill Refill range, it supports sustainable cleaning practices while maintaining high performance standards in professional environments. The formulation combines **microbial and enzyme technology**, enabling it to break down organic matter and provide long-lasting freshness.

This cleaner is developed for versatility, making it suitable for use on **almost all hard surfaces**, including glass, mirrors, polished and unpolished finishes. The **rinse-free formulation** simplifies cleaning processes, reducing labour time while leaving surfaces clean and streak-free. Its **fresh cotton fragrance** enhances the user experience, providing a pleasant and hygienic environment after application.

The specialist biological formulation continues to work after application, helping to **control odours at source rather than masking them**. This makes it particularly effective in environments where persistent odours are a concern. The product is also suitable for use in **scrubber driers**, supporting efficient cleaning in larger areas.

Supplied as part of the **Windmill Refill system**, it promotes reduced packaging waste and efficient product use. The **5L format** is ideal for high-usage environments requiring reliable and cost-effective cleaning solutions.

Product Features

- Biological **multipurpose cleaner with enzyme formulation**
- Cleans and deodorises in one application
- **Rinse-free formulation** for efficient cleaning
- Provides **long-lasting odour control**
- Suitable for **multiple surface types including glass and floors**

- Compatible with **scrubber driers**
- **Fresh cotton fragrance** for improved environment

Product Benefits

- Reduces cleaning time with **combined cleaning and deodorising action**
- Helps maintain a **fresh and hygienic environment**
- Controls odours at source for longer-lasting results
- Suitable for a wide range of cleaning tasks
- Supports efficient and consistent cleaning routines
- Ideal for professional and commercial use

Technical Characteristics

- Suitable for use on **most hard, water-washable surfaces**
- Designed for **rinse-free application**
- Compatible with manual cleaning and machine use
- Utilises **microbial and enzyme-based formulation**
- Part of the **Windmill Refill system**
- Requires use in accordance with manufacturer guidelines

Applications

Windmill Synergy Multipurpose is suitable for **commercial, industrial and institutional environments**, including offices, washrooms, healthcare settings, schools and leisure facilities. It is particularly effective in areas where **odour control and hygiene are important**, such as washrooms, waste areas and high-traffic spaces. Its compatibility with both manual cleaning methods and **scrubber driers** makes it ideal for maintaining cleanliness across both small and large floor areas.

Property	Value
Fragrance	Fresh Cotton
Volume (L)	5
pH	7-8
Area of Use	Suitable for almost any hard surface or floor, including glass, mirrors, polished and unpolished. Also suitable for use through scrubber driers.
