Windmill Synergy Multipurpose - Biological Multipurpose Cleaner - 1L - Refill Recharger

Variant code: 07-805

Windmill Synergy Multipurpose is a biological multipurpose cleaner developed to deliver **effective cleaning, deodorising and long-lasting odour control** across a wide range of environments. As part of the Windmill Refill system, it supports sustainable cleaning practices while maintaining consistent performance for professional users. The formulation combines **specialist microbial and enzyme technology**, allowing it to break down organic matter and control odours at source.

This eco-friendly cleaner is designed to clean and deodorise in a single application, reducing the need for multiple products. The **rinse-free formulation** simplifies cleaning processes, saving time while leaving surfaces clean and streak-free. It also features a **fresh cotton fragrance**, helping to create a pleasant and hygienic environment after use.

Suitable for use on **almost all hard surfaces and floors**, the product can be applied to glass, mirrors, polished and unpolished surfaces without leaving residue. Its versatility extends to machine cleaning, as it is compatible with **scrubber driers**, making it suitable for both small-scale and large-area cleaning tasks.

The biological formulation continues to work after application, providing **ongoing odour control** rather than simply masking unpleasant smells. Supplied as a **1L refill recharger**, it is designed for use within the Windmill dosing system, supporting efficient product use and reduced packaging waste.

Product Features

- Biological **multipurpose cleaner with enzyme formulation**
- Cleans and deodorises in one application
- **Rinse-free formulation** for efficient use
- Provides **long-lasting odour control**
- Suitable for **multiple surfaces including glass and floors**

- Compatible with **scrubber driers**
- **Fresh cotton fragrance** for improved environment

Product Benefits

- Reduces cleaning time by combining multiple functions
- Helps maintain a clean and fresh-smelling environment
- Controls odours at source for longer-lasting results
- Suitable for a wide range of cleaning applications
- Supports efficient and consistent cleaning routines
- Ideal for professional and commercial environments

Technical Characteristics

- Suitable for use on **most hard, water-washable surfaces**
- Designed for **rinse-free cleaning applications**
- Compatible with manual cleaning and machine use
- Utilises **microbial and enzyme-based formulation**
- Designed for use within the **Windmill Refill system**
- Requires use in accordance with manufacturer guidelines

Applications

Windmill Synergy Multipurpose is suitable for **commercial, industrial and institutional environments**, including offices, washrooms, schools, healthcare settings and leisure facilities. It is particularly effective in areas where **odour control and hygiene are important**, such as washrooms, waste areas and high-traffic zones. Its compatibility with both manual cleaning methods and **scrubber driers** makes it ideal for maintaining cleanliness across a wide range of surfaces and floor areas.
