Windmill Synergy Washroom - Biological Washroom Cleaner - 5L - Windmill Refill

Variant code: 07-810

Windmill Synergy Washroom - Biological Washroom Cleaner - 5L - Windmill Refill designed to deliver **effective cleaning, deodorising and ongoing odour control** within washroom environments. As part of the Windmill Refill system, it supports sustainable cleaning practices while maintaining consistent performance for professional users. The formulation combines **specialist microbial and enzyme technology**, enabling it to break down organic residues and eliminate odours at source.

This eco-friendly washroom cleaner is formulated to clean and deodorise in a single application, reducing the need for multiple products. The **rinse-free formula** simplifies cleaning processes, saving time while leaving surfaces clean and streak-free. Its **fresh cotton fragrance** enhances the overall washroom environment, providing a clean and pleasant finish after use.

The product is suitable for use across **all washroom areas**, including surfaces, floors, sinks, taps, showers and baths. Its biological formulation continues to work after application, delivering **long-lasting odour control** rather than simply masking unpleasant smells. This makes it particularly effective in high-use washroom environments where hygiene and freshness are essential.

Supplied in a **5L refill format**, it is ideal for high-usage environments requiring a reliable and cost-effective cleaning solution, while supporting reduced packaging waste as part of the Windmill Refill range.

Product Features

- Biological **washroom cleaner with enzyme formulation**
- Cleans and deodorises in one application
- **Rinse-free formula** for efficient cleaning
- Provides **long-lasting odour control**
- Suitable for **full washroom cleaning applications**
- **Fresh cotton fragrance** for improved environment

- Part of the **Windmill Refill system**

Product Benefits

- Reduces cleaning time by combining cleaning and deodorising
- Helps maintain a **fresh and hygienic washroom environment**
- Controls odours at source for longer-lasting results
- Suitable for a wide range of washroom surfaces
- Supports efficient and consistent cleaning routines
- Ideal for professional and commercial environments

Technical Characteristics

- Suitable for use on **all washroom surfaces and floors**
- Designed for **rinse-free cleaning applications**
- Compatible with manual cleaning methods
- Utilises **microbial and enzyme-based formulation**
- Part of the **Windmill Refill system**
- Requires use in accordance with manufacturer guidelines

Applications

Windmill Synergy Washroom is suitable for use in **commercial, industrial and institutional washrooms**, including offices, schools, healthcare facilities, leisure centres and public buildings. It is particularly effective in high-traffic washrooms where **odour control, hygiene and ease of cleaning** are essential. Its versatility across surfaces such as **sinks, taps, showers, baths and floors** makes it a comprehensive solution for maintaining clean and fresh washroom environments.
