# Windmill Invincible - Cleaner and Sanitiser - 1L - Windmill Refill Recharger

**Variant code: 07-215**

**Windmill Invincible - Cleaner and Sanitiser - 1L - Windmill Refill Recharger** is a dual-purpose cleaning solution developed to deliver effective cleaning and sanitising performance in a single application. Manufactured in the UK under **ISO 9001, 14001 and 18001 standards**, it forms part of the Windmill Refill system, supporting efficient and sustainable cleaning practices. Designed as an essential everyday product in the fight against cross infection, it is particularly suited to hygiene-critical environments where consistent cleanliness and sanitisation are required.

The formulation is suitable for cleaning and sanitising frequently touched surfaces such as door handles, tables, banisters and general contact points, as well as for mopping floors. It is pleasantly perfumed, leaving a fresh and clean fragrance after use, helping to maintain a hygienic and welcoming environment.

Windmill Invincible is certified against H1N1 Influenza, MRSA and common food poisoning bacteria, and is effective against Coronavirus, Swine Flu, HIV and Hepatitis C. It meets recognised standards including **EN 1276** and **EN 14476**, supporting its use in professional cleaning and hygiene management applications.

The bleach-free, non-hazardous and non-toxic formulation ensures safe use on all common water-washable surfaces. Supplied as a **1L refill recharger**, it is designed for use within the Windmill dosing system, promoting accurate dosing, reduced waste and cost efficiency across high-use environments.

## Product Features

- Combined **cleaner and sanitiser** for dual-action performance
- Certified to **EN 1276 and EN 14476 standards**
- Effective against **viruses and bacteria** including Coronavirus and MRSA
- Suitable for **frequently touched surfaces and floors**

- **Pleasant fragrance** for a fresh finish
- **Bleach-free, non-toxic and non-hazardous** formulation

## Product Benefits

- Supports **infection control in high-risk environments**
- Reduces need for multiple cleaning products
- Improves efficiency in daily cleaning routines
- Provides reassurance in hygiene-sensitive areas
- Safe for use across a wide range of surfaces
- Enhances overall cleanliness and user experience

## Technical Characteristics

- Suitable for **all common water-washable surfaces**
- Designed for use with **manual cleaning methods and floor mopping**
- Compatible with the **Windmill Refill dosing system**
- Manufactured to recognised **ISO standards**
- Effective against a broad range of **microorganisms**
- Requires use in accordance with manufacturer guidelines

## Applications

Windmill Invincible Cleaner and Sanitiser is suitable for use in care homes, healthcare environments, schools, sports facilities, hotel washrooms and public areas where hygiene is essential. It is particularly effective in high-contact environments, including animal handling areas and general facility maintenance, where both cleaning and sanitising performance are required to support infection control and maintain safe, hygienic conditions.
