Windmill Odour Force Lemon - Enzyme Deodoriser - 1L - Windmill Refill Recharger

Variant code: 07-625

Windmill Odour Force Lemon - Enzyme Deodoriser - 1L - Windmill Refill Recharger is an enzyme deodoriser designed to deliver **effective odour elimination and cleaning performance** across a wide range of environments. As part of the Windmill Refill system, it supports controlled dosing and reduced waste while maintaining consistent performance for professional cleaning applications. The formulation uses **enzymatic action** to break down organic soiling and stains, removing odours at source.

This product acts as a natural and effective odour eliminator, targeting contamination such as vomit, urine, food waste and other protein-based residues. By digesting organic matter, it provides thorough cleaning alongside **long-lasting odour control**. The **powerful citrus scent** delivers immediate freshness, making it ideal for environments affected by strong or persistent odours.

Safe for use on **all types of absorbent surfaces**, including carpets and fabrics, it offers flexibility across multiple cleaning tasks. It is particularly effective on protein-based stains such as vomit, urine, eggs, milk, wine and meat, making it suitable for use in washrooms and other odour-prone areas.

Supplied as a **1L refill recharger**, it is designed for use within the Windmill dosing system, helping ensure accurate application, reduced product waste and improved cost efficiency.

Product Features

- Enzyme-based deodoriser with **natural odour eliminating action**
- Breaks down organic soiling and stains at source
- Effective on **protein-based contamination**
- Suitable for **absorbent surfaces including carpets and fabrics**
- Provides **long-lasting odour control**
- **Powerful citrus fragrance** for immediate

freshness
- Designed for use within the **Windmill Refill system**

Product Benefits

- Eliminates odours at source rather than masking them
- Improves hygiene and cleanliness in affected areas
- Reduces need for multiple cleaning products
- Suitable for a wide range of cleaning applications
- Helps maintain a fresh and pleasant environment
- Supports efficient and consistent cleaning routines

Technical Characteristics

- Suitable for **absorbent and porous surfaces**
- Designed for use on **organic and protein-based stains**
- Utilises **enzyme-based cleaning technology**
- Compatible with manual cleaning methods
- Designed for use within the **Windmill Refill system**
- Requires use in accordance with manufacturer guidelines

Applications

Windmill Odour Force Lemon is suitable for use in **commercial, industrial and institutional environments**, including washrooms, care homes, hospitality venues and public facilities. It is particularly effective in areas affected by **organic contamination and strong odours**, such as carpets, upholstery and washroom surfaces. Its ability to break down protein-based stains makes it ideal for maintaining hygiene and freshness in high-traffic and odour-prone environments.

Property	Value
Fragrance	Lemon
pH	7
Volume (L)	1
