Windmill SD Heavy - Low Foam Heavy Duty Cleaner - 5L

Variant code: 03-821

Windmill SD Heavy is a low foam heavy duty cleaner designed to deliver **powerful cleaning performance for heavily soiled surfaces** while maintaining controlled foam levels for efficient use in professional environments. As part of the Windmill cleaning range, it is formulated to tackle grease, grime and stubborn dirt across a variety of hard floor surfaces.

The heavy duty formulation is engineered to break down and lift ingrained soiling, making it suitable for demanding cleaning tasks where standard cleaners may be less effective. Despite its strength, the product maintains **low foaming characteristics**, ensuring compatibility with scrubber driers and other mechanical cleaning equipment without disrupting operation.

Windmill SD Heavy is suitable for use on a wide range of hard, water-washable surfaces and can be used for both manual and machine cleaning applications. Its formulation allows for flexible dilution depending on the level of contamination, providing versatility across different cleaning scenarios. It helps restore surface cleanliness while supporting ongoing maintenance programmes in high-traffic environments.

Product Features

- Low foam **heavy duty cleaner**
- Removes **grease, grime and heavy soiling**
- Suitable for **intensive cleaning applications**
- Compatible with **scrubber driers and machines**
- Suitable for a wide range of hard surfaces
- Designed for professional cleaning use

Product Benefits

- Provides effective cleaning on heavily soiled areas
- Maintains efficient machine operation with low foam
- Reduces time required for deep cleaning tasks
- Supports consistent cleaning results

- Suitable for demanding environments
- Helps maintain hygiene and cleanliness standards

Technical Characteristics

- Designed for **heavy duty cleaning applications**
- Low foam formulation for machine compatibility
- Suitable for manual and mechanical cleaning
- Can be diluted depending on cleaning requirements
- Compatible with standard cleaning equipment
- Use in accordance with manufacturer guidelines

Applications

Windmill SD Heavy is suitable for use in **commercial, industrial and institutional environments**, including warehouses, factories, kitchens, workshops and public buildings. It is particularly effective in areas with **heavy traffic and high levels of contamination**, where strong cleaning performance is required. Its low foam formulation makes it ideal for large floor areas cleaned using **scrubber driers**, ensuring efficient and reliable operation.

Property	Value
Fragrance	Characteristic
pH	13
Dilution	For heavy duty scrubbing and stripping dilute SD Heavy 1 part to 10 parts hot water. For maintenance cleaning dilute SD Heavy 1 part to 80 parts water.
Area of Use	Unpolished Floors (Suitable for Scrubber Driers)
Dosing Chart: 10L Dilution	Dosing:4
Dosing Chart: 5L Dilution	Dosing:2
CLP	corrosive
How to Use	Dilute into mop bucket or tank of scrubber drier for floor cleaning.
Chemical Colour	Dark Yellow
Frequency of Cleaning	Daily and Deep Clean
Cleaning Method	Scrubber Drier
