Windmill SD Light - Low Foam Neutral Cleaner - 5L

Variant code: 03-820

Windmill SD Light is a low foam neutral cleaner designed to deliver **effective routine cleaning with minimal residue and controlled foaming** across a wide range of floor surfaces. As part of the Windmill professional cleaning range, it is formulated for use in environments where maintaining floor finishes and ensuring efficient machine operation are essential.

The neutral formulation allows for safe use on protected and unprotected floors, helping to remove dirt, grease and general soiling without damaging existing finishes. Its **low foaming characteristics** make it particularly suitable for use in scrubber driers and other mechanical cleaning equipment, ensuring optimal performance without excessive foam build-up that could interfere with operation.

Windmill SD Light is designed for versatility and can be used across various cleaning routines, from manual mopping to machine cleaning. It leaves surfaces clean without dulling or degrading floor coatings, supporting the longevity of floor finishes and maintaining a consistent appearance over time. The formulation also ensures easy rinsing and minimal residue, helping to maintain slip resistance and surface clarity.

Product Features

- Low foam **neutral floor cleaner**
- Suitable for **routine cleaning applications**
- Removes dirt, grease and general soiling
- Safe for use on **protected and unprotected floors**
- Designed for use with **scrubber driers**
- Leaves minimal residue after cleaning

Product Benefits

- Maintains floor finishes without damage
- Supports efficient machine operation
- Reduces foam-related issues during cleaning
- Ensures consistent cleaning results
- Suitable for a wide range of environments
- Helps maintain a clean and professional

appearance

Technical Characteristics

- Neutral pH formulation for safe cleaning
- Low foam design for machine compatibility
- Suitable for manual and machine cleaning methods
- Designed for dilution depending on application
- Compatible with standard cleaning equipment
- Use in accordance with manufacturer guidelines

Applications

Windmill SD Light is suitable for use in **commercial, industrial and institutional environments**, including offices, retail spaces, healthcare facilities and public buildings. It is particularly effective in areas where **machine cleaning is required**, such as large floor spaces and high-traffic zones. Its low foam formulation makes it ideal for maintaining floors efficiently while preserving the quality and appearance of existing finishes.

Property	Value
Fragrance	Odourless
pH	8.7
Dilution	General Cleaning 1:10, Wet mopping 1:64, Scrubber Drier 1:64, Food Contact Surfaces 1:10, Stripper Residue 1:64
Area of Use	Polished Floors (Suitable for Scrubber Driers)
Dosing Chart: 10L Dilution	dosing:5
Dosing Chart: 5L Dilution	dosing:3
How to Use	Dilute into mop bucket or tank of scrubber drier for floor cleaning.
Chemical Colour	Light Yellow
Frequency of Cleaning	Daily
Cleaning Method	Scrubber Drier
Polished or Unpolished Floor	Polished and Unpolished
Floor Type	Laminate, Rubber, Safety Floor, Tiles and Wooden
