

Windmill Skin Reconditioner – Perfumed Skin Conditioning Cream – 300ml

Variant code: 10-851

Windmill Skin Reconditioner is a **quality skin conditioning cream** developed to help restore, moisturise and care for hardworking hands. Ideal for use after washing or at the end of a working shift, this fast-absorbing formulation helps replenish lost moisture, leaving skin feeling soft, smooth and comfortable.

Designed for professional and industrial environments, the cream helps combat the drying effects of frequent hand washing, exposure to workplace contaminants and challenging working conditions. Its **fast and effective formula** quickly penetrates the skin without leaving a greasy residue, making it suitable for regular use throughout the day.

The cream features a **pleasant fragrance**, providing a refreshing and enjoyable user experience while helping maintain healthy skin condition. Regular application can help support workplace skin care programmes by keeping hands moisturised and reducing the risk of dryness and discomfort associated with demanding work environments.

Product Features
